## DETAILED ACTION

### *Response to Arguments*

Applicant's arguments with respect to claims 1-19 have been considered but are moot in view of the new ground(s) of rejection.

### *Claim Rejections - 35 USC § 102*

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1<sup>2</sup> and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by Kim et al. (US6285690).

With respect to claims 1<sup>2</sup> and 19, Kim show in Fig.1 a limiter optics for an ignition feedback regenerative FEL amplifier having a pulsed output beam of predetermined duration from an undulator 30 comprising:

A. a pickoff member 34 adapted to directing a portion of the output of said pulsed output beam as a pickoff beam; and

B. a limiter assembly (44,50, and 46) adapted to bringing said directed pickoff beam to a focus at a selected point within said undulator 30 at a selected time.

*Allowable Subject Matter*

Claims ~~3~~-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Conclusion*

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
